and Told  
By The Editor

We started to make a resolution not to cuss in the paper in 1941, but some things and some persons are so hellish and damnable that we will just resolve to be reasonably temperate in this respect.

There was so much "sassiety" doing this week that we practically turned the paper over to the old lady, and we will catch up on our new scribbles and renewers next week of the following week.

One resolution made by one of our friends will be kept, we'll bet: that he will not drink anything in 1941 unless he is by himself or with some body.

There is an epidemic of influenza in progress, tho it is not serious yet. At the first sign, get in bed and call the doctor.

Well, we got a darn sight more ads this week than we expected, and that's what we pleaded earnestly with Santa Claus for.

Among those who stayed in Grenada Wednesday instead of attending the Sugar Bowl game were your editor, Mr. George Terrell, Budeye, Finley Horton and several others. Even the sedate Mr. Doak attended the game.

A resolution that should be made by those who wish to suppress the heke traffic is this: I will help the officers secure evidence, I will turn in all information, I will sit on juries summoned, and I will lend moral support to the officers by my presence at alleged violators are being tried.

We certainly are grateful to Henry Ford and Mr. Nash, among others, for a nice series of advertisements.

Mr. Van W. Williams, venerable Grenada citizen, suffered another stroke while visiting his daughter in Jackson and has been brought back home to Grenada. He is in a precarious condition.

The members of the Horn family, including the faithful negro cook, were killed Christmas morning, to talk to their son, Durrow, Jr., from Washington where he is employed in the War Department. The cook reported to a neighbor that she had talked "every foot of the way" to Washington.

The many friends of the popular Mr. Al Gully are concerned over the condition of the elder Mr. Gully, seriously ill in his home in Kemper Court.

If it were not for the inherent modesty of its president and of its directors, we could and would make a big tale of Trust Bank's annual dividend of 16 percent, and of its again increasing its healthy surplus. There is not a sounder financial institution in existence than the Trust Bank.

The meetings of the Ferdinand Club have been seriously interrupted by licker parties and Christmas dances and, lastly, the Sugar Bowl game. Its members are very frivolous, and should resolve to get back to serious business.

The many friends of Dr. H. T. Rogers, as well as the friends of the deceased, regret to hear of the untimely death of Henry Rodgers, son of Dr. Rodgers, near Austin, Texas, over the week-end.

Much obliged to Cas Heath, Sr., for a fine shirt, and to F. C. Bailey for a couple of cans of Wagon Wheel tobacco.

Jackson was mighty pretty with its electric doorways, lighted trees, etc., last week, but considering the relative size of the two towns, Grenada had Jackson skinned.

Several are sure to ask us whether little Charlie Ellis Townes is putting that nickel into the milk bottle, or fumbling to get a nickel out, and we are sure that we do not know.

At the Fortnightly Dance Friday night, your ringside observer noted that some of the men whose wives were out of town were having the best time. If we receive liberal job printing patronage, our lips are sealed like King Tut's tomb.

At the dance, I told in person the girl I thought was the prettiest one, but to mention it here, might lead to serious disaster.

At the dance it was noted that the tempo of one gentleman was raised slightly after he took his old lady home to look after the kids at intermission.

Congratulations to the postal boys for doing a big job—the biggest record well.

## Hon. C. J. Worsham Returned Home on Writ of Replevin

Hon. Charlie Worsham, Circuit Clerk of Grenada County, who has been in Hot Springs several weeks purportedly to take the curative baths at that notorious spa, might be there yet, looking at those blouses, etc., had not a Writ of Replevin been issued on him by friends here in Grenada. Charlie is a most circumspect bachelor here at home, and he may be such when he gets away from home, but the character of picture postal cards he sent back to friends in Grenada indicated the contrary. For example, a prominent attorney received two such postal cards, one depicting a gouty-looking soue, encased in a huge glass bottle with the caption, "I Am All In," and another showing a thinly draped, if puchitridenous blonde with tempting curves, slim ankles, diminutive feet and decollete (if that's the way to spell it—ask Charlie) bathing suit and somebody who looked like Charlie looking longingly at her. Feeling that "Charlie, who has always been like Caesar's wife was supposed to be," might be emmeshed in the nets cleverly laid by the sirens who inhabit that gay city, a Writ of Replevin in the following words was issued for Charlie: (State of Mississippi) County of Grenada ) To Anyone Interested: You are commanded to take Charlie Worsham alleged by his friends, plaintiffs, to be wrongfully detained in Hot Springs, Arkansas, and to deal there-with according to law; and to summons said defendant to appear before Santa Claus on the 25th day of December, 1940, that being the fourth Thursday of December 1940, to answer the friends of Charlie Worsham, plaintiffs, for unlawful detention of said property.

Witness my hand this 23rd day of December, 1940.  
Aline Bridges, Circuit Clerk  
W. B. Nicols,  
Attorney for Plaintiff

## Hog Cholera Exists In Grenada County

Hog cholera exists in the community of Graysport, Miss., in Grenada County. In order that this highly contagious disease be held to the premises where the infection is, it is very essential that the carcasses of dead hogs be burned, or buried at least three feet deep. Quick lime should be thrown over carcass before dirt is thrown in. If this is not done, bizzards, dogs, flies, flood waters, etc., might cause extensive spread of the infection. Hog owners, who live near the area where infection is, would be much safer if they would confine their hogs to pens and pastures at home, and not permit them on open range. It is good policy and economics to have all well hogs treated in the vicinity where the disease prevails. It is, however, a waste of money, serum and time to treat hogs sick with cholera. In so far as cholera is concerned, it would be safe to permit hogs free range if properly treated with serum and virus.

On premises where hog cholera exists, or has been present, it would be wise to have treated with serum and virus any new hogs placed on such premises. Otherwise, they are liable to pick up the infection and succumb to the disease. It is, also, wise to purchase hogs the history and condition of which you are acquainted. By so doing you will be more positive that you are getting hogs that have not been exposed to infection.

Hog cholera is strictly a disease of swine. Other animals are not affected with it.

## Requests For Homestead Exemption Annual Matter

According to instructions received by Mr. L. S. McKnight, Tax Assessor of Grenada County, those who wish to secure the benefits of the homestead exemption must make PERSONAL application before the county tax assessor each year before June 1st.

Mr. McKnight states that he has the proper blanks in his office and is willing to help make out the applications. This year, he is not allowed the extra help that he is allowed during so-called "dead years," and, therefore, you are going to have to come to the office in person, or catch him out in the field.

It is remarkable to note that only six applications for homestead exemptions were turned down by the state authorities for homeowners of Grenada county last year, and Mr. McKnight is anxious to reduce this number this year.

To sign an application is a mighty easy way to make a few dollars, hence you are urged to attend to this matter.

## Briscoe Further Discusses Power Situation

The Christmas holidays have speedily passed over and the glorious New Year is on the wing, may it bring us continuance of health, happiness and good fortune of life as the receding years have done, may we resolve our thoughts not to think particularly of individualism or altogether of our own personal welfare but dedicate an unsparing portion of our good wishes and unerring efforts enthusiastically toward the welfare of the most wonderful City we know, the City we are a part of and the City that is truly ours, our Grenada. May we not be so eager to follow the well trodden path of least resistance and in our procrastination shift our portion of civic responsibility and our desires of that which we might covet altogether onto the shoulders of others who seem more inclined and willing to push forward to possible stipulation of important matters that concern and will be of great material benefit to each and every one of us. May we assimilate, as a body, for the purpose of helping make our Grenada a more wonderful and personally economical place to live by working to the end of erecting our OWN Light and Power Plant. That will be an unfurling and dependable benefit to each and every citizen in the city of Grenada.

As a matter of comment or ridicule, some friend had a statement in print that there was too much 6 percent power company stock being paid for here for my writing to be of benefit or to even hope to push forward to a city owned plant. This does not wilt my enthusiasm because I know that the stockholders in Grenada are intelligent people and that they are conscious of the confirmed fact that should we erect a city owned plant today that it would not effect the stock that was sold them by the power company in their maneuver to stimulate morale and good will of the masses. This stock does not just cover their holdings in Grenada but the holding of the power company everywhere.

The Power Company are a good business people, far seeing and technically anticipating, they bought our plant for practically nil and a few back debts that we could have easily paid ourselves and they sold stock helter skelter to the extent of accumulating money from the masses and moral support with the masses to erect their exterior and interior system of lines and equipment that is now making not only the stock holders but we consumers pay thru aggravated channels and pay well enough for consumed energy for the power company to conveniently and readily pay the 6 percent on their stock.

The stock holders are simply paying themselves off and not the company by paying the overplus rate we now have with us, to make bad matters worse we have years before us yet before the contract terminates between the city and the power company, but let us remember one thing, that it is a decided fact that if the contract has not already been actually broken it has surely been dangerously bent.

Having our own power plant the stock holders of our present source of supply would continue to receive their dividends and we all would enjoy cheaper rate structures and a more uniform voltage and the city, which is we, the people, would accumulate surplus funds that would lower our taxes, have funds for emergencies, retire outstanding bonds, build what is needed and many, many other things that I could name here. Think it over for your own benefit.

C. W. (Red) Briscoe

## Fines and Forfeitures Take Big Jump

Seen, Heard and Told  
By The Editor

Little Tommie Rose got one of the best Christmas presents of all, a pretty little wife from Com.

Several of our prominent citizens, after celebrating Christmas Eve, waked up in time to ask what day it was on Christmas Day, then, after gulping down a pitcher of water, turned over and tried to go to sleep.

About 150 of our subscribers began on Jan. 1st, and, therefore, end on Jan. 1st, and, therefore, are "out" with this issue. Please look at the date and, if it says 1-1, please come around with cash or a good excuse.

Captain J. L. Shaw spent a few days here over the week-end, having been sent from his post at Camp Blanding, Florida to the School of Fire at Fort Sill, Okla.

We spoke a little out of turn last week when we said that the county officials had quit patrolling out of town rinters. The ink was not dry in our news item to last effect before we saw, with our own eyes, a deck alignment of staid in one of the county offices from a federal county printer, still that could have been printed here.

Several are expecting to be grand parents soon.

## Starting A New Year

Realizing that a good community newspaper is the greatest, and the least expensive community asset that any community can have, we start off 1941 with the determination to make the GCW better and better as the weeks pass, to devote more and more attention to community betterment; to refrain more and more from dabbling in matters of state and national interest.

Community builders who have studied conditions concede that a live community newspaper, devoted exclusively to community affairs, is the community's greatest asset. Hundreds of people form impressions of a community only from the newspaper of that community. If the newspaper is clean, newsy and progressive, the outside reader at once concludes that the community represented by that newspaper is clean, interesting and progressive. If the newspaper of the community is ill-printed, the reader at once concludes that the community takes no pride in itself, that the physical appearance of the community must be similar to that of the newspaper. If the newspaper of the community is filled with "canard" stuff, and with happenings in places scattered from Oklahoma to Cairo, the reader at once concludes that the community must be dead if it does provide enough local news to fill a small newspaper. If the newspaper of the community takes frequent digs at local people and at local institutions, the reader is drawn to the conclusion that the town is divided within itself, that it has not pride enough to keep its own scoundrels hidden in its own closets.

In starting off 1941, we are definitely abandoning the bitterness that we conceal, often characterized our editorials about state and national officers, or candidates for such offices. While we do not go so far as to say that we will refrain from a word of praise for some commendable leader or some commendable appointment, and that we will absolutely refrain from condemning acts and appointments made against the common interest, we do resolve that, as a political organ for any man or any sect, the GCW is definitely out of business; that we do not propose to let our personal support of any man, or any set, obscure the main object of the reborn GCW—to help build this community, to lay up a reserve for the inevitable slump of the future, and to make the Grenada County Weekly a greater and greater asset for the community we love.

We have come to the conclusion that all newspaper men eventually come to, that the meddling in politics leads inevitably to grief. Meddling in politics costs us a \$200,000 life time out, as our meddling resulted in the perfectly natural, and of a very powerful man, who, when the proper time came did the perfectly natural and the perfectly human thing: chopped our head off. Illustrative of the futility of meddling with politicians, the record will show that the individual in whose interest we got into the mess, did nothing, said nothing, tried to do nothing and tried to say nothing to extricate us from the mess that we got into in his behalf.

We re-dedicate the GCW to its original slogan, "Grenada County News A Specialty; Other News Used Only in an Emergency."

## The President's Message

Sunday night last President Roosevelt delivered the most important message ever delivered by a President of the United States to his own people and to the people of the entire world.

Like the leader of the English people, Winston Churchill, Mr. Roosevelt did not seek to conceal the gravity of the situation from his people, reminding his people that they have faced no such crisis since James town and Plymouth Rock.

To beleaguered England, he promised the utmost aid. To the conquered nations he inferentially promised restoration of their self government.

To Germany, Italy and Japan, he yielded not a single inch in his determination to see that this country gives every possible aid to enemies of this "unholy alliance."

To the wavering nations, and to those now actively allied with Britain, he held out the hope of ultimate victory for Britain and her allies.

To strikers and those practicing sabotage, he promised no comfort, nor aid he promise any comfort to profiteers. He reminded Fifth Columnists and other saboteurs from within that he "had their numbers," and would soon deal with them.

To the parents of boys now in the army and to those whose sons are subject to the draft, he promised that no American expeditionary force would be sent to Europe.

Not seeking to minimize the gravity of the situation, the President urged everyone to lay aside non-essential matters and put their shoulders to the wheel. He reminded people that the primary concern of the nation today was to defend itself, that being the national policy. He reminded pacifists and those who think a victorious Hitler will stop when he conquers Europe that, if Europe is conquered, the Americas will live, if at all, with a loaded gun in its face.

Strikers were bound to sense the iron hand within the velvet glove when the President said, "The Nation expects our defense industries to continue without interruption from strikes and lockouts."

The dominant point in his message was contained in the statement that our best guarantee of peace was to be found in greater and greater help to the men now holding the line in England, Lybia, Suez, Greece and China.

He made no secret of his belief that we must either HELP Britain defeat its enemies NOW, or have to fight those nations ALONE in the future.

President Roosevelt's message, heard by the entire world, boosted the morale of Britain, Greece and China, caused cold chills to run up the spine of Hitler and Mussolini, stiffened the resistance of the aged Petain, gave Japan a case of the jitters, and, more than all, brought to the American people the realization that they must prepare or perish.

## Get Your Share

Government experts and business prognosticators agree that the year 1941 is going to be a better business year than the record year of 1929. There is little point in analyzing the reasons for this impending boom. The thing to do is get your share of the business.

Even if there is not an industry even allied closely with war production in the Grenada area, you can bet your bottom dollar that the backwashes from the surges of spending will reach Grenada. The truth of the matter is that these backwashes have already reached Grenada, as Grenada enjoyed the best Christmas business ever.

The experts predict that the seasonal slump in business which usually characterizes the months of January and February will be absent this year.

Grenada merchants can profit more greatly from this period of prosperity, and easy money, if they take a leaf from the pages of Sears, Roebuck & Co., and from those of the great merchants in Memphis and New Orleans. Watch the daily newspapers coming out of Memphis. Watch the printer's ink being used by the Memphis merchants to attract the dollars of the people of the Memphis area (including the Grenada trade territory) to their stores. Watch the mails to see the gorgeous catalogues of the mail order houses.

It is nothing unusual for a Memphis merchant to advertise as a "Special" an article that is ordinarily sold lower right here in Grenada. The reason the Memphis merchant can get by with this is two-fold: first, most people with even modest income receive the Memphis paper, and, second, the Memphis merchants use advertising space liberally to attract these potential customers in the Tri-State, including Grenada potential customers. Most Grenada merchants, other than the food merchants (and this group, paradoxically, suffers little from Memphis competition), advertise spasmodically, while their Memphis competitors advertise regularly.

With good roads, fast cars and plenty of funds, a trip to Memphis today means little more hardship than a trip to Hardy meant twenty years ago. Most people prefer to trade at home, to patronize their home merchants, if they can do so without financial sacrifice. It is idle to condemn people for trading away from home when they are not advised of the prices of articles at home. It is futile for the local merchant to bellyache about people going off to buy stuff at higher prices than he has, UNLESS he advises them of his prices through the newspapers. People, attracted by the gorgeous ad-vertisements and the attractive prices shown in the Memphis papers, and not knowing of the prices charged at home and of the articles in the home merchants' shelves, can not be blamed. People make a habit of shopping in the newspaper columns.

## The Food Stamp Plan

As we have said all along, the county board of supervisors holds the key to the opening of the Food Stamp Plan.

Until the gentlemen representing the country beats are shown that the plan will not only help the whole county but also help their own beats, they will continue to be indifferent about the plan—and we do not blame them.

We believe that the plan will be of great benefit to the rural merchants, giving them an opportunity to do a big cash business in articles which are classed as "surplus." If the country merchants could be convinced that the plan would help them, these gentlemen would get behind the plan and urge its adoption by their representatives on the county board. If we are right in our belief that the plan will be a great help to the country merchants, then the people working for this plan's adoption should contact the country merchants and convince them of the potential benefits.

If the reader will excuse the crude expression, George Chamberlain, Dave Williams, Burns Strider and Jim Elliott, the four gentlemen who represent the four rural beats, do not give a damn what we town folks want if our desires conflict with the desires of their own constituents. They naturally desire to do what their own people want them to do. If the rural merchants and the rural clients are apathetic, the rural supervisors will be apathetic. If the rural merchants and the rural clients are hostile, the rural supervisors will be hostile; but, if the rural merchants and the rural clients can be shown that the plan will be beneficial to THEMSELVES, and if they make their wishes known to their supervisors, the rural supervisors will vote for the plan—but not until.

## The Hill Council

The Delta section for many years was the faithful old milk cow of the state treasury. It contained few voters and much taxable wealth. A few years ago, the men of this section, realizing how they were being milked, organized a Delta Council whose primary purpose was to coordinate their efforts, to make up for their numerical inferiority by unity of action and by sending their BEST men to legislative halls. That their efforts have been successful can not be denied. Take cotton acreage allotments for example. We venture this assertion: that the average delta landowner is not only allowed nearly twice as large a percentage of his acreage to be planted to cotton, but he will receive, acre for acre, twice as much parity money as his hill brother.

There has never been any cooperation in the hill section. There has never been any effort to draft men for legislative posts. With all respect to our representatives from this section, we can not but say that none of them measure up to such Delta men as Wolfe, Sillers, Upshur, Culkin, Roberts and Woolfork.

Mr. Byron Hunter, who is temporary chairman and temporary secretary of the proposed council, and it is suggested that those interested in the formation of a Hill Council talk to or write to Mr. Hunter at Grenada.

## Have The Milk Delivered

All of us who have owned surplus milk cows have, at one time or another, let some one keep the cow, always with the provision that the calf be taken care of, that the calf get at least two tits.

All of us who have done this have found that the calf became poorer instead of fatter. All of us who have tried this scheme which was first tried by Abraham, have found that the poor calf suffered. All of us, including Abraham, have decided after trial that the best thing to do is to turn the cow and calf out together and let the calf get all the milk; that there is no point to lending out a milk cow.

But, if the contract to lend out the cow is a binding contract, we suggest that the owner of the cow and calf make arrangements with the local dairyman to deliver a gallon of milk per day to the calf, for that's the calf's only sure way to get any milk.

## CAPTAIN SHAW GOES TO FORT SILL, OKLA.

Captain James E. Shaw, Jr., commander of Bq. Btry. 1st Bn. 114th Field Artillery, left Camp Blanding Wednesday, December 24th for Fort Sill, Okla. Fort Sill is reputed to be one of the most complete Field Artillery schools in the world. It is quite an honor for a battery commander to be called there for advanced training in the science of the field piece.

During the absence of Captain Shaw First Lt. J. M. McCormick will command the battery. He vows he will keep it up to par.

## HAVE YOU RECEIVED ANY MAIL—YES—NO?

For some unknown reason the mail has been slow—damn slow—getting back to Grenada. One girl raised the devil because she had not received any letters from our fifth best looking corporal. Some of the boys—there are getting a little worried about not receiving mail but there is nothing that can be done about it until better outgoing mail facilities are made available in Starke.

## CAMP SITE IN FAIR CONDITION WHEN WE ARRIVED

When we arrived in our new home we found a rather forlorn and ill looking place. Sand is everywhere and if it didn't rain so much it would be more barren than the Sahara desert. Pine trees are conspicuously the dominating tree, with a few scrub oaks. Some expected to reach out the back of their tents and pluck an orange—haven't seen an orange tree yet. However, things are not quite as bad as it appeared it would be on first sight of the place. We have the best type toilet and bathing facilities; large and comfortable mess hall; roomy tents, having six men per tent; canteens and post exchanges, where anything under the sun can be purchased; theatres that show first rate pictures at reasonable prices—20¢ to be exact; a recreation center where plays and other entertainments are given; a large building where all creeds and denominations may come and worship; and, many other things that make army life a more wholesome and enjoyable one.

## WE CELEBRATED CHRISTMAS IN THE ARMY WAY—NEXT YEAR WE WANT TO ENJOY IT IN THE REGULAR AMERICAN WAY

This Christmas Season was the first for many of us to spend away from our homes and families. When the Yuletide rolls around again we hope to be back home enjoying and celebrating Christmas in the regular American way.

Just to let you folks back home know what kind of "slum" we had for Christmas dinner, we publish the menu.

## TRIP FROM GRENADA TO CAMP BLANDING—IN SHORT

We pulled out from the Fair Grounds shortly after nine o'clock and arrived in Jackson, Miss., in the mid-afternoon; we quartered in the Agriculture building—didn't say anything about sleeping—it was too cold.

From Jackson we motored to Biloxi and slept very comfortably in the Pehua Vista dance pavilion. From Biloxi we traveled to Pensacola, Fla., and tried to sleep in the Cotton Warehouse—what they wanted with it is more than I can understand—didn't see a stalk of the King of the South since I left Alabama. From Pensacola we had a rather hard march to Tallahassee, the Capital of Florida, and spent a very, very pleasant night in the recreation building at the Florida State College for Women. Saturday, just past noon, we arrived in our happy home, Camp Blanding.

### PORTERA-MARASCALCO

Miss Rose Marascalco, daughter of Mr. Charles Marascalco, became the bride of Mr. John Portera, son of Mr. and Mrs. Joe Portera, of West Point, Miss., in a beautiful ceremony solemnized at 10 o'clock Sunday, December 29th at the large assembly hall used by the Catholic congregation for their church services. Father Cletus Manon, of Water Valley, officiated.

One of the most impressive of ceremonies of the winter season, the wedding was witnessed by a large assembly of friends and relatives.

Winter greenery was banked to form a charming back ground for the bridal party. Preceding the ceremony a program of nuptial music was presented by Mrs. E. E. Penn at the grand piano, and Miss Katherine English, of Water Valley, Miss English sang the response during the ceremony and a solo "Ave Marie."

The lovely bride was given in marriage by her father, Mr. Charles Marascalco.

White dutchess satin formed her lovely gown, cut with fitted bodice featuring a sweetheart neck line, long sleeves and long circular train. Her veil of white silk net held in place by a cap of pearls was edged with lovely Rosepoint lace and fell in graceful folds to the very edge of the train of her gown. She carried an arm bouquet of calla lilies. Mrs. Joe Marascalco, sister-in-law of the bride, was matron of honor while her sister, Dona Marascalco, was maid of honor.

Their gowns of pastel, heavy quality taffeta, were identical in make, featuring the sweetheart neck line, empire bodice, puffed sleeves, and full skirts ending in demi trains. The maid of honor carried a bouquet of American Beauty roses. The maid of honor wore rose taffeta and carried sweetheart roses. The ring bearer was handsome little Joseph Marascalco, dressed in white tuxedo. The junior bridesmaid, Louise Marascalco and the flower girl, Dona Portera, wore identical frocks of white taffeta with buffout over dresses of white silk net. Charismatic white velvet roses were worn as wreaths in their hair. The junior bridesmaid carried pink carnations. Four bridesmaids were attired in identical frocks of rose hued and blue taffeta. Their beauty was further emphasized by the becoming halo hats made of the dress material. The gowns had empire bodices, tiny buttons trimming the back, charming sweetheart neck line, puffed sleeves and full skirts ending in demi trains. They carried arm bouquets of pink carnations. The bridesmaids were, Miss Roselynn Portera in blue taffeta, Miss Donnie Marascalco, in rose taffeta, Miss Josephine Barranco, in blue taffeta, and Miss Grace Marascalco in rose taffeta.

The groom and six groomsmen were attired in black tuxedo, carnation boutonniere and traditional black bow tie. They were Messrs. Sam Marascalco, Charlie Barranco, of Grenada; Messrs. Tony Dichiera and Charlie Domini, of West Point; and Messrs. Salvo Serio and Charlie Marascalco, of Greenwood.

Following the ceremony, the family dinner attended by members of the bride's and groom's families, was followed by a reception attended by many relatives and friends. Guests were greeted by the bride's sister, Mrs. S. J. Portera, of West Point.

In the dining room, the long dining table, draped with damask, was centered by a beautiful two tiered wedding cake, elaborately decorated with candy wedding roses and bells. Ice cream, dainty cakes decorated with tiny sprays of candy, and iced Coca-Colas were served.

Out-of-town guests included Mr. and Mrs. Frank Barranco, of Durant, Mrs. Marinello, of New Orleans, Mr. and Mrs. Joe Portera, of West Point, Messrs. Tony Dichiera and Charlie Domini, of West Point, Mr. Salvo Serio and Mr. Charlie Marascalco, Mrs. Serio, Mr. Frank Barranco and Misses Angelina Chetta and Leona Tuninello, of Cruger, and Miss English, of Water Valley.

For traveling the lovely bride wore a smart ensemble of blue wool trimmed with silver fox, a silver fox hat combined with cap of dubonnet felt, white kid gloves and dubonnet purse and slippers. ## Seen, Heard and Told By The Editor

"Miss" Lilly Pressgrove was made happy this Christmas by the presence of her "only" boy, Au, who was en route from the Air Corps station near St. Louis, to the Air Corps station near Denver. Au is looking well. There is about nine times as much good in Au as there is bad.

Pete Embury reported that Santa Claus must not take the GOW. Yes he does, for Katie, who wanted nothing but her present, and Mrs. Rose, who wanted a dictionary, got hers, and I am going to get my turn in greens, just as soon as Sister Pyron gets back to town.

Harry Rayburn and his pretty little bride came home to eat off papa and mama a few days during the holidays. Aint brides sweet.

Col. Henry Kahn, than whom there is no man more loyal to his friends, honored our place with a "Wall Thursday."

They are still talking in Grenada about that pump-chested cat in Down Argentine Way, especially the middle age men, who ought to know better.

Everyone misses Mr. Van Williams, for sixty years a figure on the streets of Grenada, from his daily visits about the square. Full of years, he is confined to his home.

I found out from Child Lockett that the beautiful Marjorie (Gibbs) lady that I used to know is now, like myself, gray haired, but still (unlike myself) handsome.

Our good supervisors will assemble next Monday, as usual, and we now hope the hope that Jim Elliott, who has been seriously ill, will be present to add his wise counsel to that important body.

The above is the likeness of little Miss Clarice Ellis Townes, daughter of Mr. and Mrs. Lindus L. Townes, Jr., and granddaughter of Mr. and Mrs. J. L. #### TO MEASURE MOTHER'S HEART

Then braid me a line of silver,  
Mixed with threads of gold,  
And here and there place a diamond  
clasp,  
To strengthen the measure hold  
And halt ye not in your moving  
For cons the line will run,  
Then wherever a place seems darker  
From morning till set of sun  
Drop your line and hold it steadily  
For Mother's heart is there.  
Then count your inches carefully  
For we must haste elsewhere  
Around cities whose youth is wasting  
The beautiful spirit within.  
And gaudy mistaken happiness  
Lures on in the path of sin.  
Oh, hold your line, and wait and see  
That no one there may be missed.  
For the trembling lips, be it boys or girls  
Would be by my Mother kissed.  
Then off to the cabin on the hillside  
bleak  
With minds and bodies bare,  
With comforts, few for the aged and ill  
And little children who need our care  
You will have to stop at all of these  
To make the count really true:  
And then may hap we have left out  
much  
For which the measure is due.  
Be sure to stop at bewildered homes  
Where they know not which way to  
take  
Or anywhere in this sad sad world  
Where there's sorrow and hearts that  
ache  
Yes, friends if ever a silver gold cord  
Can reach round the world, we may  
start  
In some small way, to reach the  
depth and breadth  
Of my Mother's golden heart!  
—Mrs. Starke Willis.

## GRAYSFORD NEWS

(Continued)

Mrs. Wayne Koonce was hostess at a lovely Christmas party Monday afternoon. After several unique and interesting contests, the guests' names were called from the Christmas tree which was the key note in the exquisite decorations of the most attractive living room, each member of the club, and every guest received a lovely gift, in glistening and colorful wrapping, and the delighted old and the young were to some extent subsiding.

The gracious hostess assisted by her charming sister, and efficient and lovely Mrs. Lee Rouse served a delicious plate. Plum pudding with whipped cream and smoking hot tea. On each plate a tiny lighted candle sat daintily upon a zinnia drop, giving the plate a striking note of holiday festivity.

Besides the club members, which to their own good luck, few were absent, following the delicious living room. There were guests from New Orleans, Meridian, Vicksburg, Hattiesburg, Grenada and Dorris, residents of Mrs. Koonce's hospitality.

Graysford had its Christmas visitors Mrs. Louise Anderson and her sister, Mrs. Fred Strand, Mrs. Strand, who is employed with the Highway department, and while Louise will return to college after the holidays, we are

hopeful that Mr. and Mrs. Strand will be with us for some time.

Ray Koonce, popular home town boy is here for a visit.

Mr. and Mrs. Henry Willis visited Mrs. Willis' mother at Jackson and Mr. Willis' mother at Holly Springs lately.

Misses Clyde and Fannie Lee Parker are Coast visitors during the holidays.

On Friday a committee met at Mr. Gaston Williams' and packed a box to send to our pastor at N. O. Another box was packed for a friend who had been ill.

Mrs. Margaret Noel is spending the holidays with her sister, Mrs. Will Criss.

Mrs. Lee Rouse entertained the children of her Sunday School class Friday afternoon.

There are other items to report to the Society Editor, but these given show that Graysford is on the map although off the highway. In closing we not only wish for you a Happy New Year, but will tell you how to have it.

## A WAY TO A HAPPY NEW YEAR

To leave the old with a burst of song. To recall the right, and forgive the wrong.

To forget the thing that blinds you fast.

To the rain regrets of the year that's passed.

To have the strength to let go your hold.

Of the not worth while of the days grown old.

To dare go forth with a purpose true.

To the unknown task of the year that's new.

To help your brother along the road.

To do his work and lift his load.

To add your gift to the world's good cheer.

To be true and to give a Happy New Year.

## MT. NERO NEWS

It's come and come, been lots said and done, and tonight the happy glad New Year's comes, with joy to some and sorrow and horrors to most of the world.

There has been so many visitors during last week and this that want of space in the G.C.W. forbids mention of all but two to say that when it comes to actual news we play no winning lottery to tell what we actually know.

Mr. and Mrs. Ruth Harting of Little Rock and Juana Beard of Helena, Ark., are visiting their parents, the Burkes.

Mrs. Alma Todd, of Hardy, and her charming little daughter, Mary Sue, visited her parents, Mr. and Mrs. J. Hall.

That Jay Lathrop, Guy Hendrix, who holds a job at Vicksburg, is visiting friends here, and says the President's speech Sunday night went over about nearly one hundred percent.

We have are blessed with two general merchandise stores, in John Provine and C. R. Byars, who are constantly on the job and ready to extend the glad hand to customers.

Uncle Henry Schmitz is visiting his daughter, Mrs. Annie Hamilton, of Memphis, and reports some mighty good town eating up there. He also says the people there must be from the noise they make, mighty behind with their hauling.

Tonight for the great New Year ball at town hall Lord Mayor will announce winner in the Christmas home decoration contest. Competition is keen and much trouble is expected.

## Moss Brothers To Handle Nash Motors Products

Appointment of Moss Brothers Motors Company, Main Street, as dealer here for the Nash Motors Division of Nash-Kelvinator Corporation was announced today by W. P. Moss, who with J. D. Moss, heads the firm.

Moss said that he would handle all

three series of Nash cars, including the sensational new low-priced Nash Ambassador 600, which has just been announced by the company.

Salient features of this long-rumored car, Moss revealed, are:

1. Gasoline economy of from 25 to 30 miles a gallon.

2. Radically new "unitized" body construction, with integral frame, all welded into a single rigid, twistproof unit.

3. New type spring suspension, with coil springs on all wheels.

4. New fast-accelerating, high economy "Flying Scot" power plant.

5. Torpedo-type body styling, with high streamline and trunk back.

6. Record roominess, with front seats nearly five feet wide.

7. Harmonizing ductone interior and exterior color motifs.

8. New two-way, ball-bearing steering, with 33-foot turning radius.

He said that the new low-price car is the flagship of a wide-range group of fifteen Nash automobiles in three series that will cover 22 per cent of the U. S. passenger car market. Herebefore Nash did business in only 25 per cent of the market, and as a result of the new move Nash hopes to at least double 1940 sales.

Along with the announcement of the low-priced Nash, the company is presenting 1941 Nash Ambassador Eight and Sixes. Both are fitted with aerodynamic twin-ignition, valve-in-head engines which boast exceptional performance and economy.

Extensive road tests have shown the new low-priced Ambassador 600 capable of traveling well over 30 miles to a gallon of gasoline, with the company following its customary con-

servative policy, prepared to advertise 25 to 30 miles per gallon under average driving conditions, Moss said.

Basic of this extraordinary economy or a big car is a six-cylinder motor of very new design, and a new type of body construction that eliminates hundreds of pounds of weight and yet increases body size and strength.

Powered by the only motors in the industry to meet certain government specifications for commercial aircraft engines, the new 1941 Nash Ambassador Sixes and Eights are the automobile industry's first cousins to giant modern airliners, Moss said.

New aerodynamic motors are among the most important features of the two senior Ambassadors, which he declared to be the biggest car values that Nash has ever offered in the medium-price field.

America's only twin-ignition, valve-in-head automobile engines, the new Aeropower motors have been heavily

dramatized, so that their appearance is as distinctive as their performance. The new motors have their triumphs accentuated with color—silver-painted valve covers, glistening red ignition wires.

The new Ambassador Six motor, with a seven-bearing, radio-balanced crankshaft, develops 105 horsepower.

The Ambassador Eight develops 115 horsepower and has a nine-bearing crankshaft. Both motors have such widely acclaimed Nash features as double automatic control, steel-strut aluminum pistons, full-length water jacketing, full pressure engine lubrication, rifle-drilled connecting rods and Iso-Thermal fuel system.
